# A short Review : 4 if

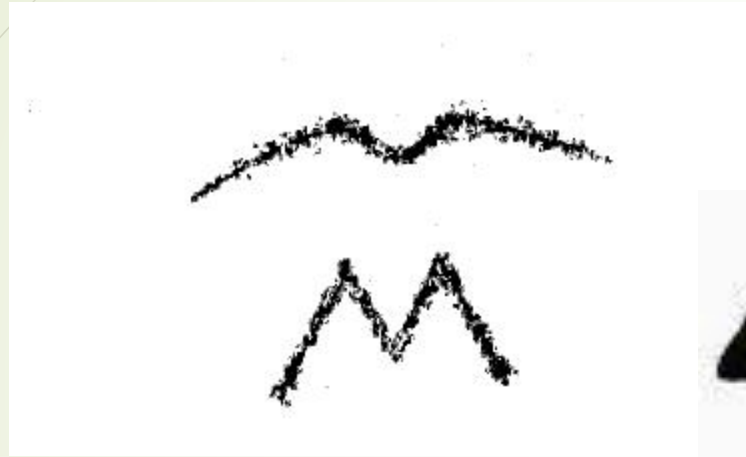

1. If the Western man beholds in his cold knowledge the spiritual-divine streaming forth below him and glancing with beauty, and 如果西方人領悟冷峻知識下湧動的神聖靈性，並且瞥見它的榮美
2. if the Eastern man senses in his religion of wisdom, warm with feeling and speaking of the beauty of the cosmos, the knowledge that makes man free, transforming itself in man into the power of will, 如果東方人在感知宗教智慧中，能體悟宇宙之美的情感和宇宙話語的溫暖，那使人自由的知識，並將其轉化為人意志的力量 **no longer accuse or condemn the others, soulless, alien to the world** 停止彼此批評，沒靈魂，世界的異類
3. If the Eastern man finds today in his reality of spirit the power to give the strength of existence to Maja, and 如果東方人今天能夠在靈性實相中找到賦予「瑪雅」存在力量的途徑，
4. if the Western man discovers life in his reality of Nature, so that he shall see the Spirit at work in his ideology, **then will understanding come about between East and West.** 如果西方人能夠在自然實相中發現生命，他將看見靈性在他的思想意識中運作，**那麼東西方之間便能相互理解**

# East Human Beings

- ▶ The thought was not yet the percept which reproduces objects. It was real being which bore into the inner nature of man the life of the spiritual world.
  - ▶ The eye of his cognition was once not directed toward Nature. He looked through Nature at the spirit.

# What do we see and write ?

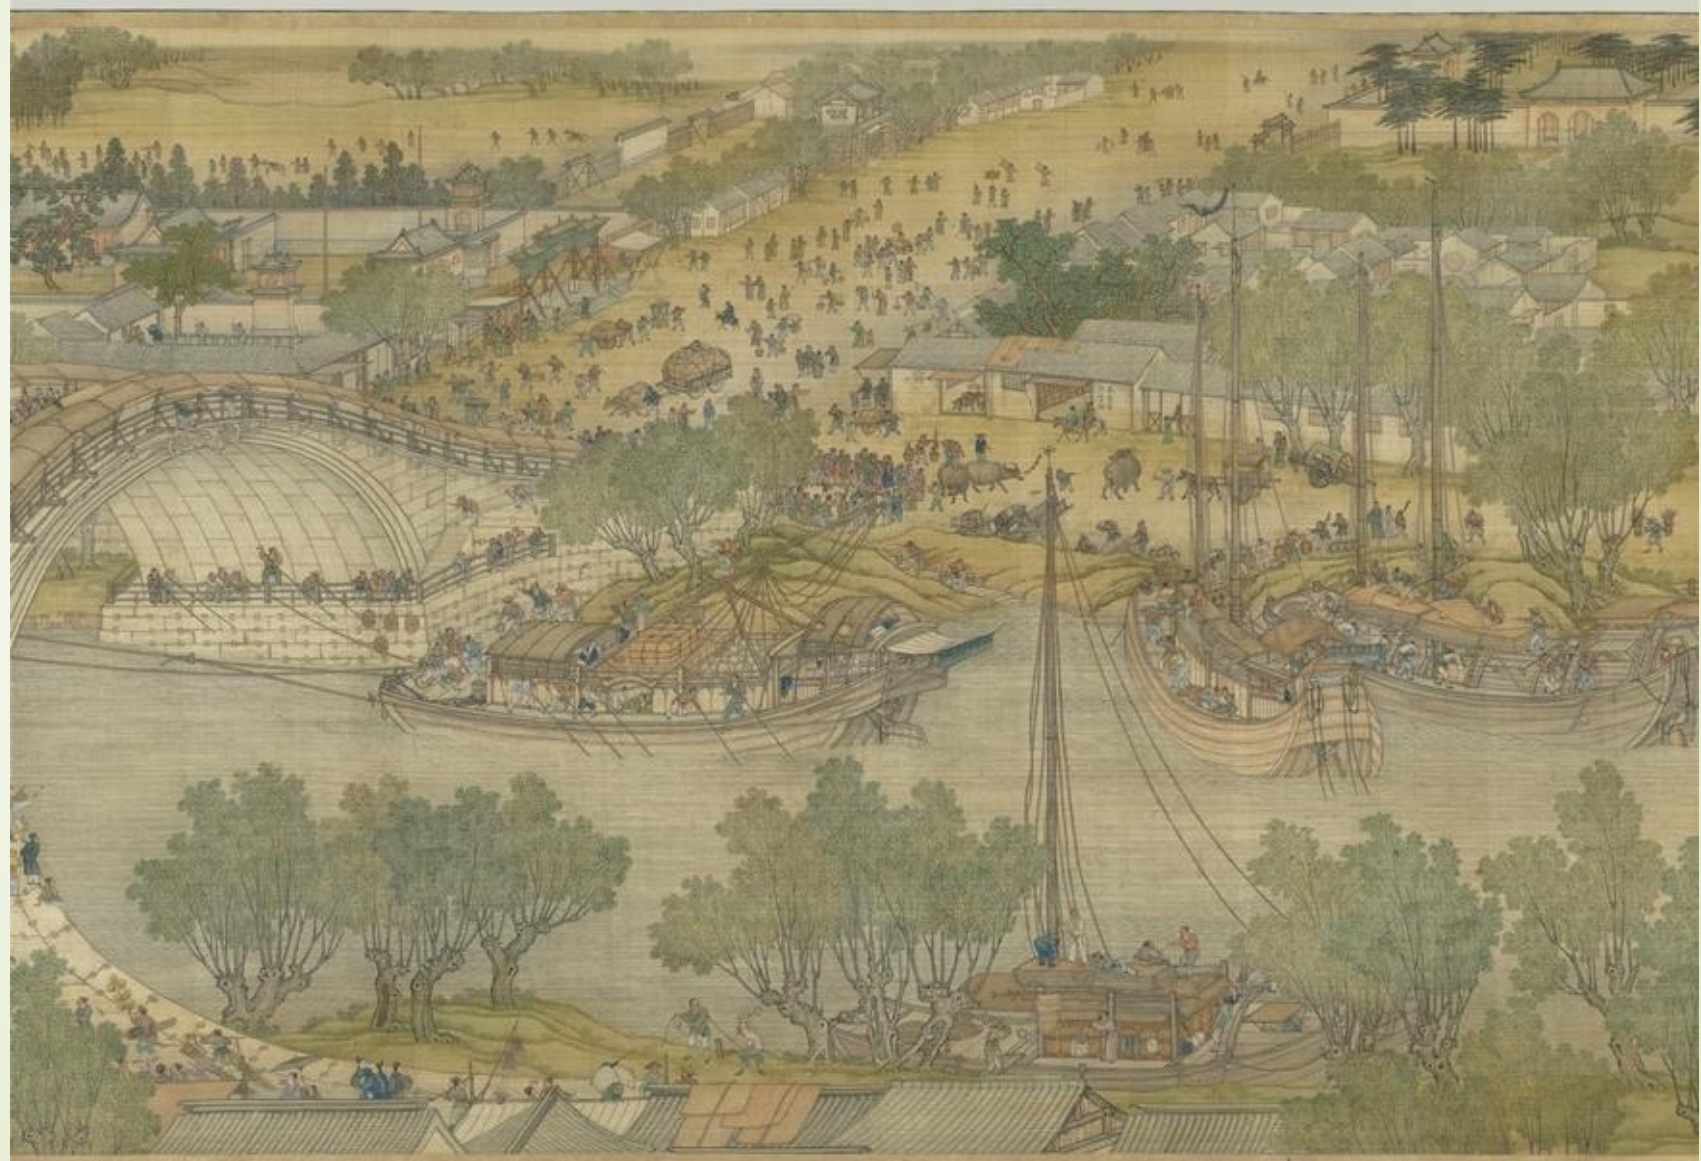

What do we see and write ?

What do we see and paint ?

What do we see and paint ?

What do we see and paint ?

# What if ?

- ▶ If the human being of the East perceives through feeling the rays of the sun within the shimmer of their wisdom moon, and
  - ▶ if the human being of the West experiences the shimmer of the wisdom moon in the rays of the sun of will;
  - ▶ then the will of the West will invigorate the thoughts of the East, then the thought of the West will redeem the will of the East.
