

Mathematics and Astronomy Section

Math in Movement

**How Projective Geometry
and Eurythmy Embody
the Invisible**

Workshop with
Dr. Russell Arnold and Jan Ranck
Exploring the Supersensible

**Friday June 26 –
Sunday June 28,
2026**

Russell Arnold, PhD Is a Co-Worker in the Section for Math and Astronomy at the Goetheanum. His research in projective geometry spans from applications in the realm of etheric-formative forces to a revival of metamorphic geometry in the mainstream of mathematics.

Jan Ranck is active internationally as a performer, teacher and trainer of eurythmy and eurythmy therapy. She is the founding director of the Jerusalem Academy of Eurythmy and the Jerusalem Eurythmy Ensemble.

The conference language is English only.

Registration

The price of the ticket includes refreshments and lunch on Saturday
